PROFILE

01

Frontend Software Engineer with **4+ years of experience** shipping responsive, accessible, high-performance web applications with **React, Next.js, and TypeScript**. Highly efficient with **AI agent models** for frontend development, using them to accelerate delivery without compromising code quality. Proven across AI products, agency client work, and international teams — translating Figma designs into pixel-perfect, reusable component systems and integrating REST APIs. Currently the **sole frontend engineer** building the entire frontend of Crulon AI's telecom and CRM platform.

EXPERIENCE

02

Mar 2026 — Present

Dhaka

Crulon AI

Frontend Software Engineer

- ◆ Sole owner of the entire frontend for the company's telecom and CRM system — architecture, component system, and every user-facing screen (React, Next.js, TypeScript, Tailwind CSS).
- ◆ Leverage AI coding agents (Claude Code, Copilot) throughout the frontend workflow — scaffolding, refactoring, and review — to ship features at a pace normally requiring a full team.
- ◆ Drive frontend performance and usability improvements, partnering with product and backend engineers to deliver quickly without sacrificing quality.

Sep 2025 — Feb 2026

Gulshan 1, Dhaka

DataCrunch Ltd

Software Engineer

- ◆ Developed scalable web applications with Next.js, Express.js, and MongoDB, including REST API integration and testing.
- ◆ Delivered the Credit Hero client frontend by converting Figma designs into a production TypeScript / Next.js application.
- ◆ Collaborated with cross-functional teams to deliver high-quality releases on schedule.

Jan 2025 — Aug 2025

Uttara, Dhaka

Leadsync AI

Frontend Software Engineer

- ◆ Developed and maintained the frontend of an AI-powered lead-generation platform built with Next.js.
- ◆ Translated Figma designs into responsive, reusable components and integrated REST APIs for dynamic data.
- ◆ Worked closely with designers and backend engineers to deliver a seamless user experience.

Jan 2024 — Dec 2024

Uttara, Dhaka

Dream Diver

Process Development Engineer

- ✦ Coordinated with clients across time zones, gathering requirements and maintaining the development team's workflow for on-time, high-quality delivery.
- ✦ Contributed frontend work on client projects — Foody Moody (React, Tailwind CSS), the MiSi Neuropsych hospital site (TypeScript, Next.js) — and modernized the company website with a redesigned, responsive interface.

Sep 2022 — Dec 2023

Baridhara, Dhaka

Ultra-X Asia Pacific

Software Engineer

- ✦ Developed and maintained web applications for Japanese clients using Angular and React, contributing UI/UX design alongside development with a strong focus on software quality and timely delivery.
- ✦ Built the frontend of Smart Office, an employee-management platform covering onboarding through task tracking (Angular, TypeScript, Node.js, MongoDB).

EDUCATION & TRAINING

03

2014 — 2020 · Dhaka

East West University — B.Sc. in Computer Science & Engineering

2022 · Dhaka

Programming Hero — MERN Stack Development (full-stack program, multiple end-to-end projects)

SELECTED PROJECTS

05

Crulon AI COMPANY — CRULON AI

AI voice support platform for ISPs and WISPs — end-to-end call handling for troubleshooting, billing, and payments. Sole frontend engineer.

Next.js · TypeScript · Tailwind CSS [crulon.ai](#) ↗

Credit Hero CLIENT — DATA CRUNCH

Credit-management platform frontend converted from Figma to production code — score tracking, reports, personalized recommendations.

TypeScript · Next.js · Tailwind CSS

Foody Moody CLIENT — DREAM DIVER

Restaurant web experience for a Netherlands-based client — menu browsing, online ordering, reviews — on a reusable component system.

React · Tailwind CSS · Firebase [Live demo](#) ↗

Smart Office CLIENT — ULTRA-X

Employee-management platform frontend covering onboarding, task assignment, and completion tracking.

Angular · TypeScript · Node.js · MongoDB
