PROFILE

01

Frontend Software Engineer with **3+ years of experience** shipping responsive, accessible, high-performance web applications with **React, Next.js, and TypeScript**. Proven across AI products, agency client work, and international teams — from translating Figma designs into pixel-perfect, reusable component systems to integrating REST APIs and collaborating closely with designers and backend engineers. Currently building AI-powered interfaces at Crulon AI.

EXPERIENCE

02

Mar 2026 — Present
Dhaka

Crulon AI

Frontend Software Engineer

- ♦ Build and maintain user-facing interfaces for AI-powered products using React, Next.js, TypeScript, and Tailwind CSS.
- ♦ Drive frontend performance and usability improvements, applying modern best practices across the codebase.
- ♦ Partner with product and engineering teams to ship features quickly without sacrificing quality.

Sep 2025 — Feb 2026
Gulshan 1, Dhaka

DataCrunch Ltd

Software Engineer

- ♦ Developed scalable web applications with Next.js, Express.js, and MongoDB, including REST API integration and testing.
- ♦ Delivered the Credit Hero client frontend by converting Figma designs into a production TypeScript / Next.js application.
- ♦ Collaborated with cross-functional teams to deliver high-quality releases on schedule.

Jan 2025 — Aug 2025
Uttara, Dhaka

Leadsync AI

Frontend Software Engineer

- ♦ Developed and maintained the frontend of an AI-powered lead-generation platform built with Next.js.
- ♦ Translated Figma designs into responsive, reusable components and integrated REST APIs for dynamic data.
- ♦ Worked closely with designers and backend engineers to deliver a seamless user experience.

Jan 2024 — Dec 2024
Uttara, Dhaka

Dream Diver

Process Development Engineer

- Coordinated with clients across time zones, gathering requirements and maintaining the development team's workflow for on-time, high-quality delivery.
- Contributed frontend work on client projects — Foody Moody (React, Tailwind CSS), the MiSi Neuropsych hospital site (TypeScript, Next.js) — and modernized the company website with a redesigned, responsive interface.

Sep 2022 — Dec 2023
Baridhara, Dhaka

Ultra-X Asia Pacific

Software Engineer

- Developed and maintained web applications for Japanese clients using Angular and React, contributing UI/UX design alongside development with a strong focus on software quality and timely delivery.
- Built the frontend of Smart Office, an employee-management platform covering onboarding through task tracking (Angular, TypeScript, Node.js, MongoDB).

EDUCATION & TRAINING

2014 — 2020 · Dhaka

East West University — B.Sc. in Computer Science & Engineering

2022 · Dhaka

Programming Hero — MERN Stack Development (full-stack program, multiple end-to-end projects)

SKILLS

Frontend

JavaScript TypeScript React Next.js Tailwind CSS shadcn/ui Framer Motion
Vue.js

State & Data

Redux Toolkit React Query Context API REST APIs

Backend

Node.js Express.js FastAPI Python JWT MongoDB Mongoose Firebase

Tools

Git GitHub Figma Postman Vercel VS Code

SELECTED PROJECTS

Credit Hero CLIENT — DATACRUNCH

Credit-management platform frontend converted from Figma to production code — score tracking, reports, personalized recommendations.

TypeScript · Next.js · Tailwind CSS

Smart Office CLIENT — ULTRA-X

Employee-management platform frontend covering onboarding, task assignment, and completion tracking.

Angular · TypeScript · Node.js · MongoDB

Foody Moody CLIENT — DREAM DIVER

Restaurant web experience for a Netherlands-based client — menu browsing, online ordering, reviews — on a reusable component system.

React · Tailwind CSS · Firebase

JWT Auth System PERSONAL

Full-stack authentication flow — registration, login, protected routes — with a Next.js frontend and FastAPI backend.

Next.js · FastAPI · Python · JWT
